2	Please do not focus on massive expansion of the community. It works as it is and if it gets significantly more people, it will lose the things that appeal to those of us who choose to live here.	6/14/2018 1:10 PM
3	There needs to be more access to water and sewer taps within Cashiers. Growth is impossible until this happens. All this planning is a waste of time until allocations are readily available for both commercial and residential growth.	6/14/2018 12:57 PM
4	Take the "long view" and do not be shortsighted and allow the goose laying golden eggs to be killed thereby irreparably damaging the character of the place that drew us there to begin with. Encourage wise sensitive development but not uncontrolled growth just for the sake of growth and an extended tax base. Even though I'm only a part time resident, local resident needs should take priority and such things as educational improvements, work force housing, and availability of quality health care should always be in the forefront of planning efforts	6/14/2018 11:15 AM
5	Don't go over board...stupid simple regulations that are enforceable improvements for locals and seasonal residents alike.	6/14/2018 10:18 AM
6	Make a good plan for traffic, pedestrians, aesthetics, appealing shopping, architecture and quality of construction and stick to it.	6/13/2018 9:38 PM
7	No need to grow Cashiers too much, it's fine as it is. We should not be driven by business profit motives.	6/13/2018 7:19 PM
8	Repair Frank Allen Road from the flood and pave the road in front of newspaper office.	6/13/2018 5:50 PM
9	growth and aesthetics are not mutually exclusive	6/13/2018 11:55 AM
10	no roundabouts widen lanes at crossroads	6/13/2018 11:53 AM
11	The people of Cashiers should be the decision makers of how they want their community designed	6/13/2018 11:49 AM
12	The parking lot at Ingles Shopping Area	6/13/2018 11:44 AM
13	Thanks for your efforts. Please work towards balancing the amount spent here with the amount taxed here, including ABC sales profits.	6/13/2018 11:37 AM
14	continue to hold frequent open and transparent public sessions - especially since we are unincorporated.	6/12/2018 7:54 AM
15	Allow liquor to be sold in restaurants Sunday AM; continued medical care improvement	6/11/2018 1:48 PM
16	This is a beautiful area and I appreciate the opportunity to give my opinions via this survey. I think the area needs to grow in order to provide more services and business development while at the same time preserving its natural beauty and serene environment. I know this presents a challenge, but I feel confident it can be done.	6/11/2018 8:53 AM
17	In my opinion, we should focus on continuous improvements in Cashiers without becoming a highly commercialized, tourist trap.	6/10/2018 2:21 PM
18	Please try yo keep it a quaint happy little community.	6/9/2018 9:21 PM

21	law enforcement presence in cashiers area (135 sq. miles) is a joke!! commission needs to approve funding for more county officers on the street and allocate at least TWO to cashiers area, not including the SRO. 3 would be better since we have a horrific meth problem and we pay 60% of the entire county tax base, we are entitled to protection vs the lawless town it is now; get involved with state government to change legislation about NC laws like breaking and entering (misdemeanor); get involved with state government to address problems with jackson co DA and judges who don't adequately prosecute criminals, keep them in jail, and/or reduce bonds by up to 95% to allow them to get out quickly; address the meth problem and do something about it; organize the mexican day labor so that it's not a free for all where they pay no taxes (google El Sol in Jupiter), actively assist the county and town of sylvia in building a new animal shelter in sylvia since the current one is old, has horrible deferred maintenance, way too small and euthanasia rates are incredibly high because it's so inadequate; clean up the trashy abandoned trailers, cars, properties; take down the old Hardees/arby's bldg on 64 or push the current owner to demolish or fix up and rent (cashiers needs a nice coin laundry and a car wash??); do something, if possible, about the ridiculous Frontier monopoly and old copper lines and the slowest internet speed known to man; form community collaborations to assist blue ridge school in providing a safe educational environment (chamber of commerce is a good starting point); address the most unclean store in cashiers....dollar general, it's embarrassing; create a volunteer organization or collaborate with the county jail to provide frequent clean up crews to pick up constant trash along major roadways; form a coalition where one or more members will attend monthly jackson county commission meetings and represent the cashiers area since we get overlooked constantly because we have no voice in attendance; form a community crime watch with a good solid communication network so that we have eyes and ears throughout the area (meaning all 135 sq. miles of cashiers area); actively pressure the jackson co #14 division of DOT to keep our state roads in good repair and drainage lines clean;	6/9/2018 3:16 PM
22	Traffic is heavier only at certain times of the year and times of day. Some busy times are better than effecting our already struggling businesses by parking issues.	6/9/2018 12:56 PM
23	We need to come tnot overdevelop. People come to get away from cities, not to become one.	6/8/2018 11:23 PM
24	No wide roads. Keep Village concept with some zoning Currently traffic is not an issue except about a month of year Like sidewalk concept or trails to commercial village establishments	6/8/2018 9:20 PM
25	Keep this special place sacred! No development on Lake!!!!	6/8/2018 4:50 PM

31	We MUST get access to county funds. We need to treat Summit as the PUBLIC charter it is. School resources offer, etc. We need to get the internet infrastructure from out of area funds. We need to elevate our education standards and pay. We need to keep the roads more rural then highway and keep speed limits through the area down so you don't speed past shopping, We need sidewalks, and dog parks. We need better oversight of the growing meth and opiod epidemic! Not safe place for drug dens to be!!	6/8/2018 9:36 AM
32	I just don't want to see an explosion of development in the area. I am also interested in seeing plans for water treatment plant since our property will overlook it from Spring Forest.	6/8/2018 8:21 AM
33	sidewalks!	6/8/2018 7:49 AM
34	Obtain a FAIR amount of the Counties funding for the area.	6/8/2018 7:47 AM
35	A few years ago a robbery occurred at my home. I did not feel supported by the police in Sylva. It is important to have an effective police dept. in the area.	6/8/2018 7:26 AM
36	Need to protect the feeling of community.	6/8/2018 6:37 AM
37	No new taxes	6/8/2018 4:32 AM
38	Keep Cashiers as much as it is, as possible. Growth for service provider housing is needed. However, huge entertainment venues are undesirable and unattractive. Buildings out of character with the village atmosphere should be prohibited.	6/8/2018 12:11 AM

39	So glad we are thinking about these subjects as a community finally. I would think sidewalks and trails could be funded by a commercial tax district and bonds. Existing and new businesses would increase income and value.	6/7/2018 10:13 PM
40	The dissemination of information for the June 4-6 "design charrette" (TERRIBLE designation) was very poor, resulting in very light participation. Try again.	6/7/2018 9:34 PM
41	The push for growth in Cashiers will greatly diminish the reason that primarily attracted all of us to the area. Please promote low growth in and around Cashiers, and do not allow increases density in Cashiers.	6/7/2018 9:33 PM
42	Greatly appreciate the Planning Council carefully and sensitively working toward a sound and prosperous future for Cashiers	6/7/2018 9:24 PM
43	Do not promote growth! Most people are here to enjoy low population and peace and quiet away from commercial development!	6/7/2018 9:15 PM
44	more road maintainance from county more protection from law enforcement	6/7/2018 7:54 PM
45	Be honest!	6/7/2018 7:47 PM
46	County Commissioners need to pay more attention to our area. We are highly taxed but because many are part time residents, they don't feel the need to pay us any attention. We may not vote here but if need be we can form political action committees to get our issues out there and be heard. All the money should not stay in Sylva. It is disproportionate.	6/7/2018 7:34 PM

54	Nice development is necessary but over restrictions are not wise. We need better water and sewer	6/7/2018 5:20 PM
55	It would be great to be able to walk around cashiers instead of drive. But having said that, we decided against living in highlands due to the tourists and their Main Street.	6/7/2018 5:15 PM
56	Tax Millage Rate is too high! Assessed Values remained high for 8 yrs. and when the Statuatorily required re-assessment was done in 2017, assessments were brought in line with current market values, but the millage rate was increased accordingly, resulting in little, or no net savings to Taxpayers. Such was fiscally irresponsible and not consistent with good government! Shame on Jackson County!	6/7/2018 5:08 PM
57	Cashiers is currently a diamond in the rough. The potential for controlled growth and development is tremendous. That said, I would not like Cashiers to become a tour bus stop but I would like to see improved infrastructure and a keen focus trained on careful and deliberate planning for this area. I am excited about Cashier's future and encouraged by this survey!	6/7/2018 5:02 PM

59	Most people are here for the climate. The microclimate will change if trees continue to be cut down and groundwater depleted for golf courses and more residences. The focus should be on remodeling an updated existing residences – many of which are empty and obsolete and for sale in the area- instead of developing unbuilt land.	6/7/2018 4:13 PM
60	Growth should not be of primary concern. But controlling growth and protecting what we have should be the most important factor.	6/7/2018 3:14 PM

65	the planning meeting that I attended were run by someone who read every single architectural rule, then followed with whether or not the proposed project complied. 70	Keep Cashiers small, low key, beautiful but functional like we have enjoyed over the years - that is what brought us here and why we invested here - there are way too too many real estate offices in and around Cashiers now leaving little or no space for businesses and restaurants. Very sad.	6/7/2018 12:15 PM
71	We love Cashiers. I would personally like another grocery store. I like Ingals, but it can get quite treacherous trying to navigate that parking lot in the busy season.	6/7/2018 11:57 AM
72	We live off Cedar Creek Rd. The amount of truck traffic to feed Chinguapin development is damaging to the road. After they are finished we hope the road will be fixed. It would be ideal to have another exit road for chinguapin closer to Panthertown.	6/7/2018 11:48 AM
73	Please pave Highway 107 south!!	6/7/2018 11:46 AM
74	We do not need another hotel and the overdevelopment of Cashiers in my estimation is obscene. The reason people come here is for the mountain experience and then they proceed to change the character of this community to the one they left. And when they ruin it then will pick up and go to another place they can ruin.	6/7/2018 11:42 AM

77	There is growth along Highlands road, outside of the commercial district, do you want that? If you want businesses to stay in the business district, at least make t as easy for commercial businesses as it is for residential. We are currently a town of gift shops and real estate offices, but little growth in the core. We should look at the pros of incorporation.	6/7/2018 11:22 AM

87	Keep Cashiers quaint but fully functional. Infrastructure, broadband, telecom, water&sewer, should come first or in parallel with development.	6/7/2018 10:36 AM
88	Enforce the law about crossing double yellow lines on all roads for everyone before we all die on these roads and fix the pot holes and ditch washouts along the roads before more potholes develop from same. Roads have to be safe and passable	6/7/2018 10:33 AM

94	Traffic Light at Ingles No MOTELS/HOTELS etc. School improvements	6/6/2018 9:12 AM
95	Cashiers is at a fork in the road and decisions made now are going to have major long term ramifications. Towns like highlands were able to address these issues themselves years ago by establishing their own local government, however as everyone already knows this village has never been able to get together and see eye to eye about incorporating or anything of the like. This is unfortunate because it means our fate is left to planners and committees like this. Cashiers is now eclipsing the level of growth last seen pre economic crisis. Growth and progress are both inevitable however for cashiers to remain the great luxury resort town it is been known for, a few key and important changes have to be made. Infrastructure that works to bring the people in to patron our businesses, foster a middle class to have a reliable labor force to staff these new businesses. Things like architecture advisory boards and wetlands conservation don't matter if a business can't do a legitimate feasibility study because traffic numbers are stagnant and labor market is on existent. It's time for cashiers to grow in the right ways. This person doesn't want it to change, just for more people to be able to experience it the way I have.	6/5/2018 11:57 PM
96	Do not take away cashiers lake!!	6/5/2018 10:39 PM

100	The proposed hotel development at Cashier's Lake should be subject to strict environmental controls.	6/5/2018 7:38 PM
101	Keep Cashiers quaint. Do we really need hotels? Tiny houses where to we put them? Developments don't allow them. Where do they go?	6/5/2018 7:00 PM
102	I don't think any facilities should be put on cashiers lake	6/5/2018 6:39 PM
103	Do not build the condos. It's not a place for residence to go it's a place for tourists to go. When the tourists leave from the summer season you won't see any residents staying at the condo so it will be a money pit. Also you are taking away the beautiful scenery that makes cashiers feel like a 2nd home to the tourists. The kids at the camps all around this area have hiked out to the lake and seen fish and looked at bear trails. Why would you want to take away such an educational experience from them? That also involves using the resources around us and investigating our natural habitat that we get to be apart of. Think about the children and what you're doing to them. You're enabling them more to be on the tablet than to get out and explore nature.	6/5/2018 6:13 PM

114	Please preserve the environment and culture of the town in your plans. We should look at banning plastic bags and straws to be more environmentally concious, I see so much plastic in our streams and hiking trail.	6/1/2018 3:31 PM
115	Concerns that the 107/64 roads cause traffic back up during season.	5/31/2018 1:20 PM
116	During "high season", it's almost impossible to turn left out of Ingles parking lot. Please consider installing a traffic light. It could be functional during the season, then blink yellow or turned off during low season. The traffic on 64W is becoming unbearable during the high season. Something needs to be done to address this issue. Thanks!!	5/31/2018 12:45 PM

122	Protect wetlands and green spaces.	5/30/2018 4:57 PM
123	Some high-density, affordable (not low-income, just affordable) residential developments need to be incentivized and encouraged. Townhomes, condominiums, and apartments providing both ownership and rental opportunities but with a smaller footprint are desirable in Cashiers given the high cost of land and construction, and the topography. Some nice, quality middle income developments are sorely needed for local year-around residents and workers.	5/30/2018 4:17 PM
124	You need to build for the future generations who will support and carry this community. Not only those who vacation here.	5/30/2018 4:12 PM

135	The mixture of county and private entities is frustrating. TWSA and Jackson County need to communicate and work together to not hold up development. Those property owners that have existing sewer allocations...but are not developing there land at this time...should relinquish their allocations to those who are shovel ready...but also be the first to get it back when the new sewer is available.	5/30/2018 10:41 AM

140	Development of a Master Plan produced by professionals which are significantly qualified to guide Cashiers into the future. Create a Village Development Authority appointed by the County Commissioners with some type of regulatory authority tax acquisition and spending authority through the Commissioners. Things are moving too slow. Question 13 did not allow multiple funding sources to be selected. This community can't survive being funded by benefactors, non-profits or private funds. Cashiers needs to receive a proportionate share of the county funds generated by the area, state and federal funds which are available need to be applied for with professionals who are experts at making those acquisitions, the sewer and water regulatory management needs to be more responsive to everyone and not allow those resources to be held by groups to control development-certainly more professional master planning on the sewer, water, sidewalk, transportation are needed in addition to GETTING OVERHEAD UTILITIES PUT UNDERGROUND.	5/30/2018 7:51 AM
